

CSP JOB SHEET

EGM-Grazing Management 4

ENHANCEMENT: Establish 100% native warm season grasses and maintain through burning, disking, or other appropriate management practices in order to enhance biodiversity.

BENEFITS

(SHORT DESCRIPTION OF ENHANCEMENT BENEFITS)

- Utilizing natives will create biodiversity and increase wildlife habitat and warm season grazing. A decrease in fertility requirements can be expected.

CRITERIA

To be eligible for this enhancement payment, fields must meet the following criteria.

- After planting to natives at least 80% must be native warm season grasses.

RECORDKEEPING

In order to verify performance with these criteria, you must complete the following records.

- Fields shall be maintained for the life of the contract. Field visits insure that vegetation is being maintained.
